

Secondary School @Wilson

Community Newsletter (August 2017)

Completed and ongoing tasks:

- Debris of old building removed.
- Salvaged bricks cleaned and stored onsite.
- Erosion and sediment control fences were erected for the entire site.
- Setting sheeting and shoring piles ongoing.

Construction activities next month:

- 18th Street at the back of the Wilson site will be closed for traffic until Spring 2019.
- Temporary construction power will be installed.
- Construction trailers will be set up.

Process related activities:

- Building Level Planning Committee meeting will be scheduled in September.
- Construction workers parking during sheeting and shoring will be on-site.
- Bottom of foundation ceremony will be held in mid October.

Ongoing site clearing

Laydown area for piles

Sheeting and shoring piles to support excavation
