<p>Please do not move us to a school we cannot walk to. While long walks that are for away. The walk to school is a valuable part of our day for exercise, community, and</p>	<p>Data No notes</p>	<p>Projections No notes</p>	<p>My kid learns best when she feels secure in her relationship. Having to start over multiple times would be hard.</p>	<p>This is not more of a priority than other criteria. That is not fair to other families.</p>	<p>Planning units South of RT - 50 make sense to be zone Wakefield (Proximity, contiguity skills & Efficiency, Alignment)</p>	<p>Please do not break up our elementary school cohorts</p>	<p>Instruction No notes</p>	<p>What about financial impact of reduced home values for communities moved to Wakefield?</p>	<p>Why not open up Magnet program to voluntarily attract students to under-enrolled schools.</p>
<p>Keep proximity within walking distance</p>			<p>Children on Autism spectrum cannot handle change easily. Please consider SPED students!!</p>	<p>Schools Yorktown & Wakefield need more diversity! How can you wakefield handle? Please Do!</p>	<p>This is a lower priority IMO</p>	<p>Gradship made early in life for you. Gradship depends down the line. Please do anything you can to retain school cohorts to follow you rather than they slip between school levels.</p>			
<p>It doesn't make sense to move kids who walk now to a situation where they are bused to another school in the future.</p>				<p>Conflicts with contiguity. Need to sit priority.</p>	<p>YOUR ONLY SOLUTION TO THE PROBLEM IS TO BREAK CONTIGUITY!</p>	<p>Well said! Please here!</p>		<p>Bill's Post</p>	
<p>For a current W&L student, I recommend all walkers should come to go to the Wakefield school I am a walker and I will have graduated from W&L by the time I enter as freshman.</p>				<p>Yorktown Island is not best for children</p>	<p>The Rosalyn Wakefield/Yorktown Island is inoperable.</p>	<p>Keep neighborhoods together - via Ashton Magnet + Lyon Park + Lyon Village</p>		<p>I think if students can walk to W&L, they shouldn't be bused instead. Walking is better for the kids and for APS's budget.</p>	
<p>SAME WALKING DISTANCE TO SCHOOL IS NOT THE SAME (FOR TRAFFIC, BUSES, AND SOME OTHER REASONS). PLEASE KEEP WALKERS TOGETHER.</p>				<p>This is a very imp. issue & should have high priority</p>		<p>But please don't split them between 3th schools</p>		<p>It would be good to see operating cost implications of different scenarios</p>	
<p>Please consider walkability. Students who neighborhoods walk in groups. Great social building. Community. Great benefit to government.</p>				<p>WHERE IS THE SCIENTIFIC EVIDENCE THAT INCREASING CLASS SIZE IS AN ISSUE VS MOVING KIDS TO SCHOOLS AND BREAKING UP THEIR NEIGHBORHOODS?</p>	<p>Ashburn/Sutton Kids already split up to 2 3rd schools I wish it was an option to keep them together</p>
