

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

Strengths	Challenges	Other thoughts
This is the best idea in the it allows for future growth and creates a positive learning environment	The lack of extracurricular options may be a turn off	This is the best presented option
We will need a new 2000 seat HS-- this site is has the room.	Need to relocate MS. Use VHC property on Carlin Spiings.	
Many walkable kids. Could move the MS and make into big comprehensive like the others. In the meantime a smaller school is marvelous!	Okay no pool. Would have to rethink teams and fields -- currently Kenmore fields used for JV by all schools. Would need to mix that up.	Why not the immersion world languages and IB? With planning could open as IB on day one. Aside from the pool and fields issue, what else are you saying it couldn't have?
Neighborhood schools are great for kids and families -- greater chance for parent involvement.	Will kids get to participate in sports? I think limited choices, à la HB's model, is just something we may need to accept. What percentage of kids participate in sports? Could kids opt to go to a school that had a full range of sports?	
	traffic, loss of green space, neighborhood disruption, too close to an elementary and middle school, disruption of community and wildlife that uses the green-space, a 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.	I don't think it's wise to have three schools so close together. I don't want to see current dead end streets opened to through traffic.

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

	<p>Traffic problems for the Glencarlyn neighborhood or anyone traveling on Carlin Springs Road. Noise problems for the Glencarlyn neighborhood (recently experienced even during last weekend's Bolivian festival; parking problems in Glencarlyn neighborhood (people were getting their driveways parked in even during last weekend's Bolivian festival)</p>	
<p>Centrally located for options for increasing diversity of all High Schools (if choices are made)</p>	<p>As * (not all programs may be available, leading to families not wanting to go there)</p>	<p>I find it difficult to understand why a High School at this site cannot offer the full range of activities, programs and courses. I believe, to be successful, it must offer some things that will draw some students from all of Arlington</p>
<p>None</p>	<p>You are placing the smallest "neighborhood school" in the poorest corner of our county how "pro segregation " are we? Read the Post</p>	<p>None</p>
<p>none</p>	<p>The traffic is awful in that location and a HS with kids possibly driving themselves to/from school w/ younger kids nearby at Carlin Springs & Kenmore would be a recipe for disaster; not being able to offer activites, programs & courses is a major downside</p>	

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

<p>none.</p>	<p>Traffic on Carlin Springs already too heavy, loss of green space that is important to local community for sports, increase in crime to local community, siting of HS next to an elementary school is a terrible idea, overall increase in congestion to area may lower property values and disturb the peaceful atmosphere of Glencarlyn neighborhood.</p>	<p>1,300 seat HS will not be large enough in the long run.</p>
<p>None</p>	<p>The traffic on Carlin Springs could NOT handle a high school. There is not enough room for parking, you can't have a high school that close to an elementary school, there is no room for a football and baseball field or track, it's entirely too close to a neighborhood for night events like outdoor sports with lights, music, etc. This would be a disaster.</p>	<p>DO NOT PICK THIS.</p>

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

	<p>Parking, traffic, noise. Carlin springs rd already has 3 schools within a quarter mile. Rt 50 and Carlin springs rd attracts homeless people and organized panhandlers. The police have been little help in assisting our community with issues and concerns.</p>	<p>I am a resident of the Glencarlyn community and have 3 elementary age children. Our neighborhood is over run by disruptive, rude and vandalizing middle schoolers almost every afternoon. A police cruiser drives around our neighborhood, but it does little to help. There is a serious traffic problem that leads to us having a hard time leaving and entering our neighborhood because traffic can back up on Carlin springs rd any given time of the day. Events at Kenmore present parking issues.</p>
<p>Could use middle school fields easily</p>	<p>What programs wouldn't be offered?</p>	
	<p>Too many schools too close together; too little space for parking; reduces field size for Carlin springs and Ken more.</p>	<p>The surrounding streets can't handle the extra traffic; already have issues with pedestrians being struck.</p>
<p>Great idea! Lots of space there.</p>	<p>One acces road in- but that could be good to control flow of traffic</p>	<p>Best option by far</p>
<p>There is plenty of land to build a neighborhood school. It would alleviate crowding because this location can easily draw students who would otherwise attend Wakefield, Yorktown, and W-L.</p>	<p>traffic on already busy Carlin Springs</p>	<p>Please clarify the details of the asterisk, *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown. What does that mean?</p>

<p>At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
		<p>Recommend looking at Bluemont Park as possible site for new high school. Centrally located in Arlington with good access to Rt. 50.</p>
<p>Creates more options for future expansion (VERY important given growth rates in Arlington), more students within walking distance (good for students & less expensive for county), many fields/facilities already exist since this is already a school site</p>		
<p>neighborhood schools foster greater community and create stronger economic and social bonds to an area</p>		<p>IMO this or the career center site are the best options,, even with limited offerings. Both sites are close to 50, so can pull from both north and south Arlington neighborhoods, increasing diversity and helping to limit traffic impacts. Additionally, as Arlington becomes urban sprawl, the county should be encouraging walkable neighborhoods. Busing kids from Rosalyn to Yorktown or from S Arlington to W&L is not sustainable or ideal.</p>
	<p>The traditional high schools should offer the same activities</p>	<p>Carlin Springs is already a nightmarish traffic situation</p>

<p>At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
<p>There's plenty of space and APS already owns the land; centrally located.</p>	<p>"A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown."</p>	<p>Could turf and light the field for that Kenmore + HS sports and other Arl Co users</p>
<p>available space, manageable size</p>		
<p>at least some field space might be available for traditional vision of a comprehensive hs; offers potential for expansion - but in a cost-effective way?</p>	<p>traffic and access; sufficient space and parking for 3 schools?</p>	<p>think through how this would be done- are separate buildings the best way or will Kenmore MS eventually be relocated elsewhere and leave us with two buildings on site? or would the elementary school be relocated? How ensure elem students remain isolated from the bigger kids? how would boundaries be drawn and how could they address socioeconomic diversity?</p>
<p>Creates second centrally-located APS H.S.</p>	<p>Likely limits on activities, programs, and classes due to smaller school size and footprint, reduction in field space, etc. for Kenmore Middle (and new H.S.)</p>	

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

<p>None that are obvious.</p>	<p>traffic given Kenmore plus elementary schools already located close by and Carlin Springs' status as already congested, lack of facilities for full high school activities, programs, and courses</p>	<p>How can APS seriously consider this option while admitting the facilities are not sufficient to offer a high school experience comparable to that offered at our other comprehensive high schools? Why are students within the potential attendance zone for this school not entitled to an education that is comparable to that received at our other high schools? And what does this do to Kenmore's ability to use athletic fields, etc. If APS thinks demand exists for an expanded IB, etc. put it here</p>
	<p>traffic in and out of Kenmore, Carlin Springs, and the surrounding neighborhoods will be negatively impacted; students will have limited or no access to playing fields and other facilities usually found at high schools</p>	<p>I'm very concerned about locating a high school in close proximity to an elementary school, especially if the students are bused in from other neighborhoods and have no personal connection to the elementary school or their neighborhood</p>
<p>Bleh</p>	<p>Too much going on for that chunk of land to have a HS and a MS...if you do that just combine them and make it a SECONDARY school</p>	

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

This ensures that all of Arlington bears the burden of increased enrollment and not just the Eastern half of the county	none	HB students enjoy many things that other middle and high school students do. HB all eats at one time. 6th graders at neighborhood schools eat at 10:30. I am sure a 1300 seat school will enjoy benefits that a much larger school will not. Why not move the IB here?
		Why is this an option when the county decided that an ES couldn't fit on that site? What suddenly changed?
Neighborhood school	What activities and programs won't be offered and why?	If it is a neighborhood program it should have the SAME options as the others.
	lose the space, building a new high school when you have the Career Center	
Kenmore appears to have space available for sports fields.	A new school should have sports programs.	
	Creates a campus that is unprecedented in size by co-locating a MS with a HS. And creates an inequity with the other neighborhood HS's by creating one that is smaller with fewer amenities.	All of these options are bad. Where is the option to create a 1300 seat county-wide choice school (for STEM/STEAM, or similar)?
This seems like a less congested way to do it. There isn't a lot of extra space at WL.		

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

<p>The land is available, it seems.</p>	<p>The traffic on Carlin Springs Road is already unbearable and cannot tolerate more. Not pedestrian friendly due to narrow roads and multiple intersections.</p>	<p>The roads are narrow and over -congested as it is. Very poor choice from a county infrastructure perspective. Also, to have HS kids next to MS and ES? Probably not a good idea.</p>
<p>I don't see any strengths with added a high school at this location.</p>	<p>Traffic, Carlin Springs Rd cannot handle this. There are also challenges for the kids walking on such a busy street</p>	<p>Need a high school where all activities, programs, and courses will be offered.</p>
<p>Definitely leave Kenmore as a middle school. The school was designed with the arts STEAM in mind and the art classes have contributed to the physical design of the main hallway. Awesome theater program needs to keep its wonderful theater</p>	<p>too many kids on one site with a high school next to a middle school next to an elementary school. Wouldn't be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown</p>	<p>bad idea to add a high school to this site. too much overcrowding with elementary and middle already there. also would drastically increase traffic to Carlin Springs, which already backs up a lot with traffic since there's really no other way in that area to get easily cross Rt. 50</p>
<p>I like the focus on the arts at Kenmore. The high school should reflect that focus as well.</p>		
<p>allows for future flexibility by taking advantage of available acreage and fields/facilities to create a smaller high school, leaving room for potential growth at the HS level and relocation of the existing MS to another future venue</p>	<p>potential social issues with shared campus for high schoolers and middle schoolers</p>	

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

<p>Decreases crowding at other high schools and creates a school (and allows the other schools) to be of a size that facilitates learning, school community, and extra-curricular opportunities for students. This is a central location for most students.</p>		<p>This is the best of all of the options.</p>
	<p>So many students in one area of the county</p>	<p>Why are we not considering this location for a STEAM/STEM program given that the community feedback clearly states that an option program is a higher priority and the greatest interest was STEAM/STEM.</p>
<p>I would love for my kids to go to a 1,300 neighborhood high school. All the "activities, programs, and courses" offered at larger high schools are not necessary for a high-quality, well-rounded education.</p>		

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

<p>Hard to see any strengths in this, would have thought there might be an interest in doing a h.s. with a STEAM focus to match Kenmore's emphasis which might make sense</p>	<p>TRAFFIC, TRAFFIC, TRAFFIC...how in the world are you going to make that work with FOUR schools in less than a mile; the loss of green space/play space/outdoor activities for both an elementary and middle school, lack of parking, the neighborhoods can't absorb that much, effectively "locking" in the neighborhoods in during rush hours and most likely on weekends. Area can barely handle one event at Kenmore Middle on the weekend, going to add more events at a high school?</p>	<p>So not keen on the idea of a "campus" of such a range of ages. Could appreciate possibly projects between the three but please also recognize that the two lovely schools there will get lost with a big high school plopped next to them? Limited public transportation options</p>
<p>A new location could accommodate 1000+ students with extra-curricular and athletic facilities. Student to teacher ratio would be reasonable.</p>	<p>Traffic and construction would be inconvenient.</p>	<p>Best option.</p>
<p>Would allow for a 4th comprehensive HS; would be fairly cost-effective; lot of acreage for fields/facilities.</p>	<p>Adds to school-related congestion along Carlin Springs Rd (4th school in a couple-mile stretch); neighbors have repeatedly opposed this; fairly close to Wakefield - tough to draw boundaries.</p>	
<p>Adequate space for all a high school's needs, and the size would be comparable to the other high schools</p>	<p>?</p>	<p>This seems like the best long-term solution given that Arlington's student population will likely continue to grow. It would help avoid having to tackle this same issue again in another 5-10 years.</p>

<p>At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
<p>can offer nearly everything a comprehensive school should offer. Field space. I'm ok with no pool</p>	<p>Need vhc site for new middle school</p>	<p>Best option. Can add more seats later due to large site</p>
<p>Spreads out the burden of the population</p>	<p>Why can't it offer all that the others offer? And why 1300?</p>	<p>Field space is there - currently inadequate for WL and Yorktown</p>
	<p>Children want choice, they want school history pride, programs not available, bad traffic situation on Carlin Springs Rd.</p>	
<p>allows more kids to attend school near their neighborhood and keeps all high schools at reasonable size.</p>		
<p>None</p>	<p>traffic congestion, noise,</p>	<p>I am highly opposed to this site as a candidate for a high school. Traffic on Glen Carlyn Road and the surrounding neighborhoods is already strained. The neighborhood also currently contends with high levels of noise for special events at Kenmore on weekends. An additional building would be a hardship on the neighborhood and the resulting traffic and noise would affect the neighborhood's desirability, thus lowering property values.</p>
	<p>Reinforces north/south divisions. Not enough land or support infrastructure for this to be a realistic option.</p>	

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

<p>Absolutely no strengths to this. NONE! I can't even believe that this is being considered.</p>	<p>Carlin Spring Rd is currently a traffic jam. A fourth high school should be on a level playing field programs, activities and sports, etc in order for the student to have a well rounded education outside of the classroom. These social programs are crucial to child development!</p>	<p>There is no reason to cram a high school with sub par offerings to what clearly is aimed at segregation of the low income community. Let's be clear... we all know why this site is being chosen. This NIMBY approach is ridiculous.</p>
	<p>Small HS without activities etc. seems like it would be better off as an "option" HS with a specialized approach that people could opt into, rather than designating it as a HS where people are required to go.</p>	
<p>Provides desperately needed comprehensive high school, located in the middle of the county, plenty of land to build school, located near Rt. 50 (highway) making transportation easier</p>		<p>Best option</p>
	<p>Too many students + too much traffic on Carlin Springs, hard to get right diversity</p>	<p>Would neighborhood HS be the only option here? Why not try smaller, more specialized approaches?</p>
<p>Best option for a fourth comprehensive school.</p>		
<p>Nothing</p>	<p>Congestion, traffic, noise, unfair clustering of 4 APS schools within one square mile... This is a ridiculous, horrible option for the surrounding community</p>	

<p>At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
<p>New site for New High School, farther from existing High Schools, should support more efficient movement of students closer to their home</p>	<p>Location of Kenmore is close to county's western boundary, reducing efficiency</p>	
<p>None</p>	<p>Lack of program similar to the other high schools.</p>	<p>we will sue if our daughter is forced to go there as a neighborhood school. Our tax \$ are just as green as North Arlington's. We should not be forced into a school that doesn't have what others are offered. Make another plan.</p>
<p>A smaller high school in the middle of the county</p>	<p>Reduce some fields</p>	<p>Best option</p>
<p>provides seats in an area with growth</p>	<p>logistically, this is a bad location. currently getting in and out of Kenmore is a disaster, with traffic backups creating serious problems up and down Carlin Springs; if we are going to have a new high school there - it should be a full comprehensive high school, otherwise you cut the kids there short</p>	<p>you have to share space for fields and such with the middle school, which disadvantages both high and middle school; there could be conflicts with middle and high school aged kids; there could be unintended consequences by having middle and high school kids close together regarding drugs and other older kid influences</p>
<p>Small high school. Personalized attention and culture. Great for community.</p>	<p>Have to be creative sharing facilities for some programs that are offered at other high schools for parity.</p>	<p>I think this is the best option.</p>
<p>This is the ONLY proposal that is a reasonably sized high school.</p>		

<p>At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
<p>Resolves seats issue and there's sufficient land at that site and provides comprehensive education</p>		<p>There is no good reason I can think of why such a school can't offer what the other high schools offer</p>
<p>Seems to offer the most room to build the 1300 seat school; would add a neighborhood school</p>	<p>Potentially limited sports offerings?</p>	<p>What activities/programs would not be offered at the 1300-seat school?</p>
<p>N/a</p>	<p>The Kenmore space and surrounding areas were never designed with this use in mind, nor to accommodate the ensuing traffic. Furthermore, this site is on the edge of the county. Surely there are other sites better suited and more centrally located, AND designed with traffic and transportation options to accommodate an increase in traffic. A drive down Carlin springs Rd on any given day after 5pm, and you will see the traffic and log jams.</p>	<p>This location is also not pedestrian friendly; we have experienced a number of accidents in recent years involving pedestrians trying to cross Carlin springs road to/Fromm kenmore and the 7-11 and adjacent neighborhood. These pedestrians were in critical condition. Increased traffic on a road that already exceeds capacity and sees constant monitoring by ACPd for speeding is asking for more accidents and perhaps fatalities. Furthermore this proposal seems completely inconsistent with the simulta.</p>
<p>The best option as this site offers sufficient physical capacity and flexibility for future but provides good options today.</p>		
<p>Nice central location</p>	<p>may not be able to offer all the activities</p>	

<p>At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.</p>		
<p>Another neighborhood high school may help distribute high and low income students more effectively to create better learning environments for all.</p>	<p>The location is at the western edge of the county where we have multiple other schools (Wakefield is very close, and Yorktown is also western). Lack of comparable programs to other high schools is problematic.</p>	<p>Perhaps put sports fields elsewhere - Long Bridge park, etc.</p>
<p>I believe this is the best option as far as space availability/location for adding the needed amount of seats.</p>	<p>Similar to the Career Center option, finding enough space for sports/extracurricular activities will be a major challenge. A brand new school without those options I believe is at a major disadvantage.</p>	
<p>Central location, small student population makes it manageable</p>		<p>This is the best choice</p>
<p>I think this is the best option for now and the long-term. It is the largest site so it will have the space for athletic fields. It's located in an area where there are boundary edges for all 3 existing HSs so it would be a reasonable place to shift boundaries. It has the space to expand to a larger HS if we can move the MS later. Building elsewhere without that expansion space will in put us back in the same situation in a few years of needing to figure out yet another place for HS seats.</p>	<p>Traffic. But, the reality is that anywhere in Arlington will have traffic issues so I don't think that should be the deciding factor.</p>	

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

Great location for traffic.		Just how interested is APS in our "feedback"? It seems that if you were really interested, you would allow more time for us to digest all of the information and provide well-thought-out comments. You seem to be saying, "Come on, people. We've already decided what we're going to do. We've even hired architects! Just agree with us so we can proceed with what we've already decided to do!!"
I strongly support a new high school. BUT it must be comprehensive and a neighborhood HS. Lack of activities, etc., compared to other high schools is NOT acceptable.	Lack of activities, etc., compared to other high schools is NOT acceptable.	Build a fourth comprehensive high school, whether its at Kenmore or at Career Center!
size is much better than WL option	location cannot handle the traffic, limited activities is unfair to those kids	this site was already rejected for a smaller elementary school
land available; near major roads for traffic flow and neighborhood impact		
		I think the HS will have to offer the programs to attract families
unknown	Traffic problems on Carlyn Springs Road, which is already slow and crowded at morning rush hour. Serious safety issues with so many students crossing busy street.	Would be disastrous in terms of traffic on Carlyn Springs Road, safety for so many students crossing the street, and parking, of which there would be a serious shortage.

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

	Traffic is a huge problem on Carlin Springs Rd. Turning the MS into a HS would only add to this issue. And it isn't equitable to turn it into a high school if the same activities, programs, & classes can't be offered as other Arlington high schools.	
	morning and evening traffic on Carlin Springs is already unbearable. This would be 4 schools within .5 miles!	
None	Location - added traffic will shut down Carlin springs rd. If you can't offer same activities as other schools then it doesn't make sense to offer this as an option	
Kenmore is centrally located in the county	How to redefine the boundaries and redistribute students equitably or to redistribute the overcrowding at W-L	Please explain the note about limited activities for a 1,300 seat high school
None	Traffic. 4 schools within a few blocks is insane!	Have you traveled on Carlin Springs Rd recently? It is packed. It cannot support another school.

At the Kenmore M.S. site • Kenmore remains as a Middle School • Building added for a 1,300 seat Neighborhood High School* *A 1,300 seat neighborhood high school may not be able to offer all of the activities, programs, and courses that are presently offered at Wakefield, Washington-Lee, and Yorktown.

There no pluses for our (Glencarlin) neighborhood if a high school is built at the Kenmore location.

This area of Carlin Springs Rd is already too densely populated. The road can barely handle the current level of traffic. It's a dangerous area for children, especially in the afternoon, when kids are separated by inches from the unending stream of cars, are trying to cross under Rt 50, and cross Carli Springs Rd.

The Glencarlin neighborhood would undoubtedly experience greater traffic and street parking spilling out from the fully occupied parking lot. It would be very harmful to what little peace and quiet still exists there.
