

## Career Center Strengths

## Career Center Challenge

## Career Center Other

Located in center of rapid development - well situated to serve growing student body

CAREER CENTER site is already crowded w/ ARL TECH + CAREER CTR + HENRY / MONTESSORI + LIBRARY, etc.

Given that S ARLINGTON site + neighborhood on break + locate new HS in N

1300 SEATS ADDED TO CAREER CTR

WITH FOCUS ON PROJECT-BASED LEARNING, INTERNSHIPS, & WORK W/TECH & WORLD LANGUAGES PROGRAMS.

Would make access to sports, extracurriculars easier for A Tech

Please make sure most people are given the opportunity to support a comprehensive high school at Kenmore <sup>not 1116</sup> <sub>1116</sub> <sup>1116</sup> <sub>1116</sub>

High School

for those interested in STEM.

Arlington's ~~is~~ version of T.J. in Fairfax Co.

• Centrally located

• Many walkers in neighborhood

• Good-size for student body (not massive like Ed. Center option)

3 acres is very little space, not a lot to expand or offer fields except roof. Will you kick out Montessori? Terrible option

LACK OF ATTENTION TO SOCIAL, COMMUNITY, AND OVERALL DIRECTION THAT COLUMBIA PIKE RESIDENTS HAVE BEEN DRIVING TOWARDS TO BUILD VIABLE, DIVERSE COMMUNITIES, WITH NO COORDINATION, WITH COUNTY BOARD.

## Career Center Strengths

## Career Center Challenge

## Career Center Other

Walking area with wide streets

ARLINGTON HEIGHTS ALREADY IS BURDENED BY TRAFFIC + NOISE + CONSTRUCTION OF ~~THE~~ NES.

LACK OF EQUITY BY

CONDENSING MULTIPLE

SCHOOLS IN ONE NEIGH-

BORHOOD

BURDEN N. ARLINGTON THIS TIME. SPREAD THE SCHOOLS AND THE BURDENS.

The Career Center seems well located for a ~~tech~~ new school - an area not near one of the other high schools i.e. geographic equity

The neighbors + neighborhood have been blindsided by this option.

Ed Center option?  
How would adding 1300 spaces <sup>add</sup> ~~over~~ to the current capacity at W-L - have any impact on the other two over crowded schools?

- Career Center option -

• Are there any considerations for moving ARL Tech and Career Center to an office <sup>center</sup> building (which could be ~~more distant~~ <sup>more distant</sup> for those programs)

Existing building w/ defined instructional design w/ Arlington Tech. Already expanding the building.

Make site a Computer HS + move Arlington Tech to office bldg.

"Having a new neighborhood high school without the same offerings as the other neighborhood high schools should be a non-starter. Fewer or no on-site sports, clubs, etc., is not equal and would set up "haves" + "have-nots."

Career Center

- Space constraints
- Parking issues
- Should be neighborhood school
- Good that it's in S. Arlington

## Career Center Strengths

Greater availability than the other options

Centrally located

## Career Center Challenge

Not central location

(CAREER CENTER)  
S. ARLINGTON CAMPUS  
OF MANY programs  
Should NOT be  
SACRIFICIAL LAND  
SO THAT KENMORE  
CAN EXPAND ITS  
ATHLETIC FACILITIES

AHCA already has  
2 elementary schools  
1 Jr High  
1 Career Center  
It is overwhelmed.

## Career Center Other

ADD the HS  
to ENORMOUS  
Parking Lot here  
at Yorktown HS

- 800 <sup>student</sup> ~~school~~ Class is too big  
- Education impact on too large of a HS  
- Lack of opportunity for sports, etc

Monte Ssori  
could be moved as  
could other  
vocational programs  
to accommodate  
more seats  
to maybe to the unused  
Floor at Arlington  
mill

THE SCHOOL BOARD TOLD THE COMMUNITY THERE WAS INADEQUATE ROOM/SPACE FOR AN ELEMENTARY SCHOOL ON THE Career Center + PATRICK HENRY SITE --- BUT NOW APPEARS TO CONTRADICT THAT BY SAYING THERE IS ROOM FOR A HIGH SCHOOL?

## Career Center Strengths

## Career Center Challenge

## Career Center Other

Instructional Focus is what we were promised with new school in years. This would support the Tech concept growing.

Tech Schools are greatly in demand in 21st century training and is the most forward thinking idea this county has had in a while.

The Corley Center could go really really high.

Over taxing <sup>neighborhood</sup> ~~neighborhood~~ infrastructure.

- Cost prohibitive to tear down + rebuild on the site
- Disruptive effect on single family homes adjacent

No clarity or transparency to the process of ~~proposing~~ proposing this (the <sup>career</sup> center) option

- Mixing elementary school needs w/ High school needs
- Seems fool-hardy

Best option because of <sup>1-2</sup> central location

A high school should be built midway, in the middle of Arlington.

I also LOVE the idea of housing a HS for IB, Languages, Immersion

Save Career Center for future development when we approach 40k students

## Career Center Strengths

Transportation is ideal at this site - 150 major traffic pattern changes we needed

Travel by students on foot or bike is super, safe here

Density is here in this area of the county already. Super centrally located.

## Career Center Challenge

Total lack of valid, reliable data on costs, impacts, and long-term sustainability.

## Career Center Other

Whatever happens in terms of bldg, there needs to be more SOCIO-ECONOMIC DIVERSITY b/t the three current H.S. (something that the board voted against) in the NSW high school

These seats seem well-suited to converted office space / urban setting. Take advantage of Arlington's many empty office bldg.

Any Fields for Sports?  
IF neighborhood school would these students have same facilities + extracurricular opportunities as other neighborhood schools?

## Career Center Strengths

## Career Center Challenge

## Career Center Other

Most people  
take bad decisions  
over crowded  
neighborhood  
schools!

Racial & income  
diversity

Should be taken

into account at  
schools.

Comprehensive

Transportation

plan for  
schools!

## Career Center Strengths

## Career Center Challenge

## Career Center Other

Field space would be tight, but could be addressed with off-site options for large fields (football, etc.)

Would really need to take over

Patrick Henry

Space to make this comprehensive
