

Jan. 29 Meeting #2 "Should"

Leed
certified

Performing
Space →
can be flexible.
w/ lecture hall

Nice outdoor landscape
for simulation

Classrooms should
have natural light
whenever possible

Physical
connection
across
5th Street

Greenspace/
balconies

Bikeshare

Career planning/
exploration/
marketplace/exhibition

Natural light

Carefully assess the
current center for future
and determine what
can work, or connecting
the school, etc.

Large open
design studio w/
flexible design
stations & spaces
for prototyping
- access to all programs
- connecting -

Carshare on site?

Incubation labs/
innovation space

Math lab &
writing lab
(covering
classroom space)

Agricultural
ROOF
(active green / greenhouse)

Flexible pop-up
space

Connect
Garfield St to
5th St.

Convert EDCD
to a community
school/charter
school/library/
parking facility
pool / library /
flex gym /
EDCD top floor office

Pool

EDCD as partner
they own land
Parks + Rec building
facility/EDCD
gets future office
space as
co-partner

Include a
NCC building
joint use
shared use facility
to offer 9-College
life-size education

More natural
light in classrooms
(inside rooms and
dark/indirect)

Transitioning paths
for infrastructure and
community use.

A space like the
ThinkLab space
at Virginia Tech in
Falls Church.

Field Sports

Commercial kitchen
that Community Center uses
- the school kitchen
(from chef staff)

Two strip lease
on school grounds
open for late students

Good community
spaces (cafeteria/
large lounge area)

Think about whether
Center Suite
program all need to
be under one
roof or whether each
high school can
have some of
these options

Underground parking
