The following information is provided to help Bidders submit a Bid in response to ITB 18FY20.

#### Changes to the ITB in Response to Questions Received:

- Q1. The ITB does not address the issue that all employees see the same price for an item regardless on the size. Oversized items are at a higher price. If employees are charged the actual cost when placing an order, those employees that obtain oversize items will actually receive less for their uniform allowance. Will this be addressed in an Addendum?
- A1. Yes. Delete section 2.1 of the Scope of Work and replace with the revised section 2.1 below. Delete section 2.7 b and replace with the revised section 2.7 b below.

- 2.1 Manage issuance limits: the UAO System must have the ability to enforce maximum quantities of items obtainable by employees over a defined period of

time. For example, employees are limited to obtaining no more than \$130.00 from July 1 through September 30. **When placing an online order, all employees will see one price for each line item regardless of price differences due to oversize charges. APS will be invoiced for the actual Bid cost for each item.**

- 2.7 Catalog: The catalog must include the following
- b. Prices and allowance information. **Prices shown in the catalog shall be for regular size items and not the price for oversize items.**
