

ARLINGTON TECH SUMMER 2020 CONSTRUCTION UPDATE

- Demolition of the greenhouse has commenced. It will be replaced with a multi-use blacktop area. The blacktop will be in place well before Sept 1
- 2ND Floor Classroom Reconfiguration project is scheduled to commence on June 1 and complete by September 1, 2020
- 2nd Floor Classroom Reconfiguration project scope is being implemented to add a science lab, right size classrooms to make them more useable and efficient, and to improve circulation to the reconfigured spaces
- 8 classroom relocatable unit will be set on the parking lot this summer in order to provide required additional capacity for Arlington Tech programs
- Classroom relocatables are scheduled to be installed this summer and be ready for use on September 1, 2020
- To make up for parking lost by placement of the classroom relocatables, another 50 parking spaces will be leased in the ECDC garage for Arlington Tech use
- Columbia Pike library renovation project was postponed due to uncertainty introduced by Covid-19. At this time, the project schedule is still being finalized, but the project could begin as early as late summer. This project is approximately 3 months in duration and will require closure of the library during construction.
- The library renovation project scope is to condense the current library facility from its 2 existing floors to the existing 1st floor space. The 2nd floor would then be outfitted for classrooms, offices, and commons spaces which would be available to the library for after hours use.
