Generating a Student Pairing Code

From a computer or browser Or from the Canvas Student App

If your student is on a computer, follow these four (4) steps to generate a pairing code.

3. Click on "Pair with Observer"

First your child needs to click on "Account"
Then, click on "Settings".

use.

ΓĴ Pair with Observer Done Share the following pairing code with an observer to allow them to Codes are case-sensitive. connect with you. This code will expire in seven days, or after one 3eheXW 4 Tap to copy NOW that you have the code you can create a Canvas parent account and pair with your child.

4. A pairing code is generated. The code will expire after 7 days or after one use. If you do not pair your accounts within that time frame, you will need to generate a new code. Write down the code.

REMEMBER

A pairing code **expires in 7 days or after first use.** A new code can be generated if the parent is unable to enter it within the timeframe. A separate pairing code will need to be generated for another parent or guardian.

Parents/guardians can pair with multiple children – each child will need to generate their own pairing code. Additional pairing codes can be entered from your User Settings

Teachers also can <u>generate a pairing code</u> on behalf of a student, from the People page of their course.
