- We have time for one or two questions before we transition to the wrap up.
  - Questions from the chat?
- Points to remember:
  - Not web-based. Sits on the computer and can work offline or on any web browser.
  - Works with laptop's built-in keyboard.
  - For student access to the desk top version, the student can ask their case carrier to submit a tech help request on their behalf.

# Read&Write in Canvas

- [Read & Write in Canvas](#) (8.18.2020) (1:31)
  - Assignments, Discussions, Quizzes. Now available in Announcements, Pages & more.
- Note Immersive Reader is another tool that works in Pages. Students can try them out to see which tool they prefer.
- Use Read&Write in Canvas when it is in the chrome browser (MacBook Air or PC)
  - Or use Read&Write desktop version for all other browsers.
- Read aloud support from the Read&Write app on the iPad works within browsers. The Read aloud does not work within apps on the iPad, including the Canvas app.
- Writing supports from the Read&Write app work within the writing platforms on the iPad.

# Read&Write Community Resources

- [GMU Assistive Technology Initiative- Read&Write](#)
  - ( available for all students and staff)
  
- [NVCC Disability Resources for Students](#)
  - ( available for all students and staff)

# Read&Write: Our favorite Things

The following features are available in all Read&Write platforms

- Check it: Proofreader checks grammar, confusing work errors & spelling.
- Dictionaries: talking & picture supports understanding of unfamiliar words.
- Talk & Type: transcribes what the student says into written form.
- Text to Speech: adjustable reading speed, words are highlighted as they are read so it helps to supports attention and understanding through students preferred means.
- Prediction: helps reluctant writers or those that have difficulty spelling.

- How might you support your child to use Read&Write?
  - Take a minute to write down your thoughts.
  - Feel free to share aloud or respond in the chat.

Wrap Up &  
Reflection
