

# ARRIVAL

- Parents should check their student's health before they leave for school. Students with symptoms should stay home.
- Bus riders: bus attendants will conduct a health screening\* before students board the bus.
- Buses will be assigned, and limited to 11 students.
- Students must wear a mask at the bus stop and on the bus, unless medically exempt.
- Bus riders will not need to be screened again at school.
- Non-bus riders will have a health screening\* before entering the school.
- Students who do not pass the screening (at school or the bus stop) will be instructed to return home.
- Parents will need to wait until their student passes the health screening.
- Students who do not have a mask will be provided one.

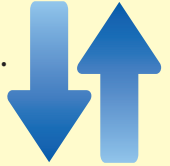

\*Health Screening: 5 questions and a temperature check

# SCHOOL DAY

## BETWEEN CLASSES

- School staff will assist students in following directions, maintaining physical distancing, and finding their classrooms.
- Students will move between classrooms for each period, walking in marked "lanes," 6 feet apart as often as possible.
- Teachers OR students will wipe down hard surfaces between classes.
- All students will carry their materials in a backpack/bag (no lockers).
- Students must maintain social distancing while using the restrooms.
- Each school will have an orientation plan to help students who are new to the school find their classes, cafeteria, entrances, and exits.

## IN THE CLASSROOM

- Student desks spaced 6 feet apart (measured from center of desk).
- All non-exempt teachers and students must wear masks.
- Some instruction will occur in small classrooms with an in-person teacher. If the teacher remains virtual, instruction will occur in larger areas with a staff monitor, while students participate in class on their devices, using headphones.
- During (limited) group work and collaborative activities, students and teachers will maintain a 6-foot separation.
- There will not be shared materials (manipulatives, lab equipment, passed papers, art supplies).
- Classes will continue to follow the synchronous/asynchronous schedule. During asynchronous learning time, students will remain at their desks.

## PE & ELECTIVES

- Students in hybrid instruction enrolled in Band or Choral classes may perform asynchronous work in person and will receive synchronous instruction on their non-hybrid day.
- All PE courses will adhere to state and APS regulations. Equipment use will comply with mandated cleaning protocols. Students will not use locker rooms.
- Library: Students will continue to access services online.
- Regular club meetings will remain virtual. Some in-person club functions may be scheduled in coordination with school administrators.
- CTE: Competencies requiring hands-on work will be prioritized when students are on-site in the lab.
- Decisions are still in development for interscholastic, intracounty and intramural athletic activities.

## MEALS/BREAKS

- Students will eat breakfast and lunch in larger spaces (eg. cafeteria, auxiliary gym) or outside, weather permitting, maintaining physical distancing.
- School staff will supervise students during meals to ensure social distancing and mask wearing.
- Students will not be permitted to leave campus for lunch or have food delivered.

## DISMISSAL

- Each school will have its own dismissal plan to include bus-riders, walkers and car-riders.
- Bus riders will have staggered dismissal, by bus schedule.
- Students will wait outside if they are being picked up, appropriately distanced.
- Parents/guardians will have limited access to the building during arrival and dismissal.

## COVID-19 RESPONSE

- Students who have COVID-like symptoms during the school day, after staff consults with clinic staff, will be escorted to an isolation room to wait while parents are contacted to approve a method to return home.
- Only legal guardians or designated emergency contacts will be allowed to pick up students.
- Students excluded from school for COVID-like symptoms will require clearance from a medical provider to return.
- If there is a confirmed report of COVID in a classroom, the classe(s) may revert to virtual learning for a minimum of 14 days, pending Public Health clearance.
- If two or more classes report COVID cases, the entire school may revert to virtual learning for a minimum of 14 days, pending Public Health clearance.
